

**Office of Regulatory Staff
New Nuclear Development Update Report
V.C. Summer Units 2 & 3**

During the week of September 3, 2018, Office of Regulatory Staff – New Nuclear Development personnel (NND Personnel) worked at the VC Summer site on Thursday.

On Thursday September 6, NND Personnel attended the Plan of the Day meeting which focused on safety, SCE&G security and demobilization/abandonment of the site. The following activities were discussed:

- The SCE&G contractor continues to perform maintenance on storm water basins and evaluate closure of storm water permits.
- Craft labor are stabilizing the area where equipment was removed to consolidate plant material.
- Craft labor are continuing to return all excess SCE&G vehicles to SCE&G.
- SCE&G's transfer of plant equipment to Santee Cooper is still under review.

Fluor personnel are on site supporting the Santee Cooper maintenance, preservation and documentation program. The maintenance, preservation and documentation program supports the maintenance of high value equipment (e.g., reactor coolant pumps, steam generators, pressurizers, reactor vessels and integrated head packages) on the VC Summer Units 2 & 3 site for future re-sale.
